Dear Community Member,

I know you are aware that State funding is extremely tight, however, Dartmouth Middle School will not allow this to be an excuse when it comes to student learning, as we will continue to find new ways to provide for our students.

In light of this, I am writing to request a donation to improve technology at Dartmouth Middle School. Dartmouth's school-wide technology is drastically behind the other middle schools in the valley. It is imperative that our students improve academically while remaining competitive in the ever evolving world of technology. Our goal is to provide our students with access to the latest technology while becoming a flag ship middle school. Dartmouth is seeking donations from local businesses and community members, with the idea of creating a link that is beneficial to both partners.

Listed below is a prioritized list of resources we must purchase in order to remain competitive, or even gain an advantage, as students prepare to gain entrance into educational programs, colleges, and universities in the near future.
